

ARUN KUMAR MEDA

Bengaluru, India • medaarun390@gmail.com • linkedin.com/in/arun-kumar-meda-557b051b8 • github.com/arunkumarmeda27

PROFESSIONAL SUMMARY

High-performing Software Engineer and Front-End AI Engineering Intern with strong proficiency in JavaScript (ES6+), React, C/C++, and Python. Demonstrated success in engineering full-stack web applications for 500+ users, reducing project assignment overhead by 80%, and placing as a Top 37 National Finalist out of 2,500+ teams. Skilled in building responsive, high-throughput user interfaces, integrating AI feature workflows, and optimizing web performance metrics.

TECHNICAL SKILLS

- **Core Languages:** JavaScript (ES6+), C, C++, Python, HTML5, CSS3, SQL
- **Frontend & UI Engineering:** React.js, Vite, Web APIs, CSS Flexbox/Grid, Responsive Web Design, State Management
- **Backend & Databases:** Node.js, FastAPI, RESTful APIs, Firebase Firestore NoSQL, MongoDB, Python Backend Systems
- **Tools & Security:** Git, GitHub, VS Code, Linux Shell, RBAC Authentication, Rate-Limiting Middleware, CI/CD

WORK EXPERIENCE & INTERNSHIPS

FlyRank AI – Front-End AI Engineering Intern

June 2026 – Present | 12 Weeks Internship | Bengaluru, India

- Selected out of 200+ applicants for 12-week engineering internship; engineered 15+ responsive web interfaces, boosting user engagement by 35%.
- Architected 5+ AI-driven feature workflows, optimizing API response handling and reducing client-side UI rendering latency by 40%.
- Refactored legacy CSS/JS modules into reusable component libraries, accelerating frontend feature deployment velocity by 25%.

DSCE ERP Management System – Lead Developer

Academic Year 2025 – 2026 | DSCE Bengaluru

- Architected a full-stack mini-project management system for 500+ engineering students and 30+ faculty using React, FastAPI, and Firestore.
- Designed an automated guide allocation algorithm, eliminating 100% of manual scheduling conflicts and saving 40+ hours per semester.
- Implemented token bucket rate-limiting middleware and RBAC protocols, achieving 99.9% uptime and zero security breaches.

KEY PROJECTS & ACHIEVEMENTS

National Agriculture Tech Solution – Team Lead & Core Developer

Jan 2026 | IBM & ACM Co-sponsored National Hackathon

- Led 4-developer team (Alpha_Coders) to build an automated IoT/AI agricultural monitoring platform during a 36-hour hackathon.
- Ranked in the **Top 37 National Finalists** out of 2,500+ competing developer teams across India.
- Developed interactive telemetry dashboards rendering real-time crop sensor data points for 100+ simulated agricultural fields.

Open Source & Web Applications – Contributor & Developer

2024 – Present | GitHub Profile

- Authored 10+ public GitHub repositories with 100+ commits, 95%+ documentation coverage, and responsive web tools.
- Optimized web application bundle sizes and critical rendering paths, improving Google Lighthouse performance scores from 72 to 98/100.

EDUCATION

Dayananda Sagar College of Engineering (DSCE), Bengaluru, India

Bachelor of Engineering (B.E.) in Information Science & Engineering (ISE) (2024 – Present)

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming (C++/Java), Database Management Systems, Web Engineering, Operating Systems.

CERTIFICATIONS & HONORS

-
- **Top 37 National Finalist (Top 1.5%):** Tech For Agriculture National Hackathon co-sponsored by IBM & ACM (Jan 2026)
 - **Mastering C & C++ Programming:** Certified by Udemy (Jan 2025)
